Traditional Timberline

# Get back to nature

Mendota's rugged Traditional Timberline fireplaces begin with a careful selection of actual field logs, hand-molded to capture every intricate detail. Each log is hand-painted and arranged to create the exact look and feel of a wood log fire in its most beautiful burning stages. In the end, there's just you and the beautiful fire—the way the experience was always meant to be.

How do you turn a chilly room into a cool space? Add the sleek warmth of a Mendota

Traditional Timberline or Décor fireplace. Suddenly, a simple wall becomes an

architectural design element that draws the eye to the fireplace first. Simple yet

stunning, it makes a confident statement in any room.

With its dramatic Georgian arch, the Greenbriar replicates the beautiful fireplaces of America's first families. It is bold and distinctive, open and inviting—the perfect showpiece for rooms that deserve to be shown. The Greenbriar can go from a roaring 50,000 BTUH log fire to the romantic, gentle flames and glowing embers of a 15,800 BTUH late night campfire—all with just a touch.
